

Reactivation of Licenses Expired or Inactive for 5 or more years

Applications for reactivation of inactive or expired licenses are now available online for quicker and easier submission and review. The Board no longer accepts reactivation applications in paper form and cannot accept checks or money orders. You must apply online by logging into your Pennsylvania Licensing System (PALS) account at www.pals.pa.gov. The reactivation application can be accessed by clicking on the pencil icon beside the license number you wish to reactivate. The documentation required for your application can be uploaded to the application online, and all required fees must be paid by a credit or debit card at the time of submission.
